HOODIE

Basic design

AQUAMARINE BLUE

This intermediate color between blue and green symbolizes lake water, so aqua and turquoise are also turquoise. The word can also refer to turquoise, a prized mineral that is often used to make jewelry. It's very Indian from the Middle East and the American Southwest.

Mei red

Rose in gemstone means rose. The color of rose in zircon is rose, which is an embodiment of pink. Compared with pink, it is dimmer but bright, with conspicuous color.

Light purple

In Chinese tradition, purple is the color of dignity. For example, the Forbidden City in Beijing is also called "the Forbidden City", and there is also the so-called "purple gas from the east". Due to this influence, purple is still revered by the Japanese royal family today. This stems from the ancient Chinese worship of the North Star.

BLACK

Black is the deepest color, mysterious and cool. Black absorbs all light without any reflection. Black is a color with many different cultural meanings. The combination of black will never go out of style, it is always added to people's clothes.

Gray

The neutral color of gray in the design of the store gives a feeling of calm. It's hard to go too wrong with gray. It seems to go with any color. Because of its neutrality, it is often used as a background color.

White

White often makes people think of snow and ice, white clouds, cotton, giving people a bright, simple, pure, light, quiet, neat, elegant, cool, hygienic feeling, a symbol of peace and holiness.

HOODIE

Half a turtleneck

High-quality basic series, using superior fabrics and tailoring, meet the needs of borderless, gender-free, cross-scene and full-size wearing. Provide the ideal choice for your brand.

Half high collar design

The semi-high neck hoodie is the advanced version of the round neck hoodie. This type of hoodie has become popular with the popularity of street style, and its collar is based on the round collar to create a small high collar by stitching the fabric.

introduce

The small high collar of semi-high collar hoodie can be the fabric extension of the same color and fabric as the body, or the fabric of different colors can be used for collage, or it can be the stitching of completely different fabrics and color fabrics. The design of color collision or material stitching allows hoodie to have more personality in the shape.

Locate the crowd

Because the half high collar for the wearer's neck length is a requirement, for the neck originally slender people, this kind of hoodie can be said to be tailored, after wearing can perfectly highlight the slender neck line!

Navy blue/dimensional purple

Blue is tolerance. Blue is love. The symbolic meaning of blue is: peace, depth, distance, cold, melancholy, gentleness. The darker the blue, the more it takes us to infinity.

Purple, a symbol of noble color, slightly melancholy and charming color, people can not bear to forget the color, on behalf of prestige, profound and elegant.

Dark red/Dark green

crimson: this kind of color makes the story atmosphere of abstruse, melancholy more easily, what convey is sedate, mature, noble psychological experience.

Green is the color of plants. It can represent life and the state of life. Dark green represents the mature and

COFFEE

belong to warm tone, it is elegant, simple, grave and do not break rePned, it is a kind of more implicit color. coffee color often makes a person diffPcult to dePne, look like apricot color also takes the identity of shallow brown, its appearance always gives a person daze, decide to give true color position hard.

The fabric information

It is woven by a large circle machine, weaving gray cloth after dyeing, and then after pulling, combing, shearing, shaking and other complex process processing, fabric positive pull wool, shaking Buffy dense and not easy to lose hair, palling, reverse pull hair sparse symmetry, Buffy elasticity is especially good. Its composition is generally polyester, soft to the touch.
